

## Cocoa Beach

Cocoa Beach is a place where you want to go there and never want to come back to your home. It is a place that can catch your heart. If you are a beach person like me, there is an opportunity for imagination to spill out of that place. It feels like home to me. Cocoa Beach is a place where everyone is welcome, and you never don't have fun.

My first time going to Cocoa Beach was April of 2021, and I still remember the room number to this day. Room 215, 3<sup>rd</sup> Floor.

I will always remember Cocoa Beach. There hasn't been a place that had the same homey feel to it as Cocoa Beach. This was a place where everyone had fun, and my family even dug a HUGE hole in the sand, which was 2 ft. deep. I will always remember Cocoa Beach. My favorite part is

the sunrise at the beach. We, my brother, my dad and I went to the beach to see the sunset. We would wake up at 6 in the morning and head out the door. We would get onto the beach and see purple, yellow, pink, red and magenta and a little bit of blue. It was so pretty; we would have so much fun on the beach. I loved it a lot. The sunset looked very cool. I will always remember my first time at Cocoa Beach.
